Request for Proposal (RFP) To Support Programs and Capacity-Building in 2020

Deadline: Grant applications must be received in the NY Nanum Foundation office no later than 5:00pm on Monday, October 31, 2019.

A. ABOUT THE NY NANUM FOUNDATION

Established as a community foundation in 2006, the NY Nanum Foundation believes in improving lives and building strong and vibrant communities by spreading a culture of Nanum (“Sharing & Giving”). With our motto **“Beyond Charity Towards Change,”** the NY Nanum Foundation seeks to identify and support community service programs that effectively respond to various critical needs of the underserved in and beyond the Korean/Asian American community through collective grassroots campaigns for fundraising, constructive and proactive engagement with the community, professional grant-making, effective education for capacity building, and strategic support for community activities. In addition, the NY Nanum Foundation seeks to pass on the invaluable cultural heritage of Nanum to future generations through its own programs and activities that embody the spirit of Nanum.

The NY Nanum Foundation serves the community in the following ways:

1. **Grant Makers** – Through strategic grantmaking, we provide financial support to community service programs that are designed to effectively meet the identified critical needs in our communities and strengthen the capacity of community based nonprofit organizations that are working to provide such services.
2. **Ambassadors of Philanthropy** – We are committed to changing the very culture in our communities by spreading the spirit of “Sharing and Giving” – to change the way people think about charity and its impact on overall community development. By doing so, we hope to engender communities that engage in the practice of continuous sharing and giving that can bring about real changes in our lives.
3. **Builders and Stewards of Community Resources** – We build and manage the charitable resources of donors and provide capacity-building conferences/workshops for community based service organizations, and community forums to represent the marginalized voices in our communities.

B. BACKGROUND FOR GRANTMAKING

The NY Nanum Foundation is committed to supporting community service programs and organizations that are serving the most critical needs in our communities. Our priority is to fund programs that focus on the following underserved groups: the elderly, at-risk youth, women, immigrants, individuals with disabilities and their families, and those community organizations that focus on Asian culture (including language) and arts (including performing and visual arts). As a community foundation, we strive to constructively and continuously engage with our community members in order to identify specific weaknesses in the current welfare/social service system and assess the true needs of our communities. This will enable us to support specific programs that adequately address those weaknesses and distribute our funds in a manner that can most effectively meet the most critical needs of the underserved in our communities. Moreover, we believe that strong community service organizations are essential for the overall development of the community—but recognize the unique challenges of smaller community organizations that have great potential community impact but often don't have the funding to support their work. So in addition to offering grants to support capacity-building which is crucial for long-term sustainability, we also limit our grants to organizations with limited access to meaningful ongoing funding sources.

C. CURRENT GRANT OPPORTUNITY

The NY Nanum Foundation is pleased to announce our 2020 grantmaking program. Grants will be available in two categories: (1) Program Support **OR** (2) Capacity Building.

After the submission deadline, all completed proposals will be read by our Grant Advisory Committee which includes members knowledgeable in community welfare and philanthropy. This Advisory Committee will review the proposals and make recommendations to the NY Nanum Foundation for grant awards. We will announce the final grant recipients no later than December 2019.
